

PROJECT PLANNING

MILESTONE&ACTIVITY

Date	2-11-2022
Team ID	PNT2022TMID38223
Project Name	Fertilizers Recommendation System for Disease Prediction
Maximum Marks	8mark

Milestone:

Modern Technology are increasing and optimizing the Performance of the Artificial intelligences(AI) Model based Crop Yield Disease Prediction System, is helpful for farmers to prevent the crop from the various Disease which can identity the Disease with in a process of capturing the image at the plant and machine learning Algorithm will give affected Disease Name, in this Project Milestone will be given the best Solution for the farmer using the complete friendly and simple user interface web application to fetching the solution by own .in addition ,process we are planned to add a valid module that is solution by recommendation for the Specific Disease .it can give both Artificial fertilizer and Natural Fertilizer in suggestion manner.

Activity List:

In Project Management Planning is an Important task to scheduling the phrase of the project to the Team Member.In this Activity can show

the various activity are allocated and Done by the Team member !In project we can Sprint into the four step of phrase are

Phrase1: Information Collection and Requirement Analysis.

Phrase 2: Project Planning and Developing Modules.

Phrase 3: Implementing the High Accuracy Deep Learning Algorithm to Perform

Phrase 4: Deploying the model on Cloud and Testing the Model and UI Performance.
